with
James Low

„Dependent origination and the practice of Dzogchen“

James Low was instructed by his main teacher, Chhimed Rigdzin Rinpoche, in many aspects of Buddhist practice, in particular Dzog Chen, and was mentored by him in his practice. In 1992 he was invited by him to teach the Buddhist Dharma himself, which he has been doing in many places in Europe ever since.

The course ends with lunch

Sunday, 20 October 2024 approx.

14:00

The topic of the course is:

“Dependent Origination and the Practice of Dzogchen”

And this is what James Low himself writes:

“Dependent origination

The myth that the autonomous ego is master of its own destiny is a delusion that leads to lack of co-operation, conflict and lonely isolation. The Buddha

offered us many opportunities to recognise the falsity of our widespread belief in an inherent existence.

By examining how we continue to believe in ourselves as a separate entity despite all evidence to the contrary, we will be able to recognise the emptiness of all phenomena including ourselves.

We will have plenty of time for practice.”

Any texts that James Low will draw on will be available in German translation for the course.

The course language is English with German translation.
